

## 2014 Clinical Quality Measures (CQMs) Pediatric Recommended Core Measures

Please note, in Stage 2 of meaningful use, the core set requirement has been removed. Instead, the Centers for Medicare & Medicaid Services (CMS) proposed a recommended core which includes measures aligned with high priority health care improvement goals. If one or more of these measures are not relevant for your organization, please utilize other measures from the approved 2014 CQM set to meet the reporting requirement.

CMS eMeasure ID & CQM Number	CQM Title & Description	Measure Steward & Contact Information	Other Quality Measure Programs that use the Same CQM	Domain
CMS146v1  NQF 0002	<b>Appropriate Testing for Children with Pharyngitis</b>  Percentage of children 2-18 years of age, who were diagnosed with pharyngitis, ordered an antibiotic and received a group A streptococcus (strep) test for the episode.	<b>National Committee for Quality Assurance (NCQA):</b> <a href="http://www.ncqa.org">www.ncqa.org</a>	<ul style="list-style-type: none"> <li>▪ EHR PQRS</li> <li>▪ CHIPRA</li> </ul>	Efficient Use of Healthcare Resources
CMS155v1  NQF 0024	<b>Weight Assessment and Counseling for Nutrition and Physical Activity for Children and Adolescents</b>  Percentage of patients 3-17 years of age who had an outpatient visit with a Primary Care Physician (PCP) or Obstetrician/Gynecologist (OB/GYN) and who had evidence of the following during the measurement period.
