

Maureen Fahey

President

Pitts Management Associates (PMA), Inc.

Fahey has more than 25 years of service in the health care industry, including her work with leading public health care systems, community-based and for-profit health systems, academic medical centers, and Fortune 25 managed care companies. She works with organizations to create a shared vision that facilitates transformational change and sustained, enhanced performance. Currently Fahey leads PMA, a national healthcare advisory services company. Among its many client projects, PMA is assisting with Delivery System Reform Incentive Program application and program development, and with public hospital strategic planning and turnarounds. Previously Fahey served as the west region health leader for KPMG's Health Business Services, built the West Region Health Services unit of Andersen's Health Practice, and managed more than 350 nursing and ancillary personnel at San Mateo General Hospital. Fahey sits on various boards and professional associations and frequently provides speaking engagements.
