

AMERICA'S ESSENTIAL HOSPITALS

May 6, 2014

The Essential Hospitals Engagement Network would like to congratulate the following network hospitals for successfully completing the “March Dash” incentives application.

To successfully complete the application, hospitals had to deliver by March 21 all data to date, a recommitment letter, an Equity Action team nomination form, and 2014 action and project plans.

Completing and submitting all of these documents will help our hospitals make more effective and sustainable safety improvements in the 10 Partnership for Patients.
