Daniel Uslan, MS, MD

Director, Antimicrobial Stewardship Program
UCLA Health

Dr. Uslan has many years' experience leading several system initiatives improving value, quality, innovation, and performance excellence for UCLA Health. He is the Director, Antimicrobial Stewardship Program, Associate Director of Clinical Epidemiology & Infection Prevention for UCLA Health, Hospital Epidemiologist for UCLA Santa Monica Hospital, Director of Quality Improvement and Associate Clinical Professor in the Division of Infectious Diseases, Department of Medicine.

Dr. Uslan is a recipient of an American Heart Association National Scientist Development Grant. In 2012 he was awarded a fellowship from University of California's Office of the President Center for Healthcare Quality and Innovation for study of a system-wide antimicrobial stewardship program. Dr. Uslan's clinical interests include bloodstream infections, surgical infections, endocarditis and other cardiovascular infections, and neurological infections. In 2012 Dr. Uslan received an R01 research grant from the Agency on Healthcare Research and Quality (AHRQ) for research on reducing healthcare associated infections through use of antimicrobial copper.
