Raymond Powrie, MD

Interim Chief of Obstetric and Consultative Medicine, Department of
Medicine

Women & Infants Hospital of Rhode Island

Chief Medical Quality Officer

Care New England

In addition to his role at Women & Infants Hospitals of Rhode Island, Powrie is responsible for designing and developing an exceptional program for quality, safety, and risk management across all of the Care New England operating units. His goal is to standardize protocols and procedures in keeping with best clinical quality practices.

Powrie holds a medical degree from the University of Alberta, and completed residency training in internal medicine at the University of Calgary and subspecialty training in obstetric and consultative medicine at Women & Infants Hospitals and Brown University.
