

## TRACKS

---

Proposals must fit into one of these tracks:

- clinical leadership
- executive leadership
- finance
- innovation and adaptation
- quality and patient safety

Reviewers reserve the right to move a proposal to a track other than the one for which it was submitted.

## EXAMPLES

---

Example topics for each track are listed below. Proposals are not restricted to the below examples – the education committee will consider any proposal that fits within one of the tracks.

### clinical leadership

- physician contracting
- electronic medical records/electronic health records/meaningful use
- using data to drive clinical practice
- care coordination
- behavioral health integration
- primary care networks
- sustainability

### executive leadership

- the role of leaders in transformation
- strategic planning
- branding
- Affordable Care Act implementation
- talent development and management
- strategic partnerships
- board development/governance
- philanthropy/community relations

### finance

- alternative payment models
- Medicaid accountable care organizations
- delivery system reform incentive program (DSRIP) and other Medicaid waivers

### finance (continued)

- exchange enrollment and sustainability
- risk adjustment
- value-based payments
- quality and pay for performance
- philanthropy/alternative revenue sources

### quality and patient safety

- harm reduction strategies
- readmissions
- caring for vulnerable populations
- patient and family engagement
- cross continuum care
- quality and pay for performance
- sustainability

### innovation and adaptation

*This track is designed to showcase new and promising programs at member hospitals in a variety of areas, such as new models for delivery of care, population health, and caring for special populations.*
