Travel Tips:

You can choose from two airports into Chicago: Chicago Midway International Airport (MDW) or O'Hare International Airport. Both airports are about equal distance from the hotel and are about a 45 minute/\$50 taxi ride (traffic can affect the ride time and taxi cost). You can also take a train from the airports, more information here.

Weather:

The temperatures are much cooler than in summer, but can be unseasonable warm, so it's best to pack layers so you are prepared for anything. The month of October is characterized by *rapidly falling* daily high temperatures, with daily highs decreasing from 68°F to 56°F from one day to the next.
